As said earlier that there are a lot of YouTube plugins available but choosing one is very much tough, if you like one plugin, the price might not be likely to you, or the design of that plugin won't surprise you. So I will suggest you some WordPress video gallery plugin considering some factors and the factors are responsive design, ease of management, SEO friendliness, and most importantly price. I will talk about best 5 [YouTube video gallery](#) [plugins](#) that will consider those.

Conclusion

It's the best YouTube video gallery plugin that can display YouTube videos anywhere with the shortcode like [gs_ytgal theme="gs_ytgal_grid"] and SEO friendly and 100% responsive plugin. You can add videos from any website. It's easy to setup and comes with a really low price. In a word, it's very simple, flexible, and a powerful video gallery plugin for WordPress.
